FIXNOX

KNOWLEDGE. APPLIED.

FIX Protocol *Training*

Understand FIX and apply it in your work. Practical, instructor-led training for the people who build, connect and support trading systems.

ONLINE · IN PERSON · FOR YOUR TEAM

Universal FIX Training

ONE-DAY COURSE

Our most popular course covers FIX system design, deployment, integration and ongoing support, with practical examples and message flows. For business users, integration engineers, support teams and system architects.

Regular public classes online and in cities worldwide. Also available for your organisation's internal teams.

What you'll learn

10 TOPICS

ID	Topic	Minutes
U1	Overview, users, asset classes and functionality	15

U7	FIX connectivity, message routing, security and encryption	30
U8	Comparison of FIX versions and each version's support for various asset classes	30
U9	FIX connection certification and on-boarding process	15
U10	An overview of other FIX based protocols like FIXatdl, FIXML and Transport Independence Framework	30

GO DEEPER · ONE DAY

Advanced FIX Training

For engineers, support teams and architects who already work with FIX and want to explore pre- and post-trade functionality. Available on demand or for internal teams.

BUILT AROUND YOUR NEEDS

Custom training

Implementing a FIX system, connecting to a new venue or supporting a new asset class? We'll work with you to define the topics and delivery for your team.
